THERAPIST • RESEARCHER • DREAM PRACTITIONER

THERAPY FOR ADULTS

A space for you.

If something isn't working in your relationships, your work, or in how you feel about yourself, this is a space to pause, understand what's happening, and find new ways to move forward.

ABOUT ME

I’m a clinical psychologist trained at Universidad de los Andes, with a master’s in Global Mental Health from The New School (New York). For 10 years, I’ve worked with adults seeking to manage emotional distress, reduce nightmares, and sleep better, or to navigate life transitions, conflict, and uncertainty. I integrate psychodynamic and cognitive-behavioral approaches with a trauma-informed somatic perspective.

I also offer individual and group sessions focused on dreamwork as a source of insight, emotional clarity and creativity.

PSYCHOLOGICAL APPROACHES

- 01

Narrative Therapy
Understand the story that limits you from your identity, and find narratives that better reflect who you are and who you want to become.
- 02

Psychodynamic Psychotherapy & Dream-work
Explore unconscious patterns shaping decisions, thoughts, and behaviors. Dreams and nightmares are used as direct access to the unconscious.
- 03

Multicultural Psychology
Examine how race, ethnicity, language, migration, class, sexual & gender identity, and culture intersects and shapes your mental health.
- 04

Cognitive Behavioral Therapy
Identify automatic thoughts that sustain distress and build concrete strategies towards wellbeing.

BENEFITS

- ◆ Clarity in decisions, relationships, and sense of identity.
- ◆ Tools for managing anxiety, stress, and depressive symptoms.
- ◆ Safe space to move through changes, grief, and life transitions.
- ◆ Understanding on how your socio-cultural context shape your experience.
